@savitha_ts

Strongly want to recommend #QuickRide to all. As a new mother traveling 28kms everyday, this app is a boon!
Pros :
Safe ride. Verified and dignified co-passengers
Lots of money(80%) saved
No deviations from mentioned route
Networking (1/2) @QuickRidein

10:13 PM - Apr 2, 2018

REDUCES TRAFFIC CONGESTION

"Despite having a car, I used to ride to work from Rama-murthy Nagar. I don't think it is right to use a car if you are the only passenger, which is why I would use the bike. I discovered the app last year, and started using my car once again. With carpooling, there are fewer cars on the road, which eases traffic congestion. We are automatically alerted about ride-sharers en route, and I have made several friends during the rides," said Abhiram Gurijala, who was among the awardees.

Abhiram Gurijala   Gaurav Naik   Neha Garg

SAFE, AFFORDABLE OPTION

"I used to travel in BMTC buses, but this is a much cheaper option. I live in Marathahalli and it would cost me Rs 75 to get to office. After switching to Quickride, the cost came down to Rs 60-70. If you're a woman, the app gives you the choice of riding with another woman. However, I'm comfortable sharing the ride with both men and women. Also, carpooling is safe, as both the riders and sharers are registered users who work in the same office environment," said Neha Garg, an awardee.

A NETWORKING PLATFORM

"I live in Rajajinagar, and since there are no direct buses to Man-yata, I had to take three different buses to office. Additionally, bus timings were not at all flexible, and the last one would leave from near office around 7pm. Carpooling was a more comfortable alternative, so I decided to use the app. Though talkative, members of the carpool are very professional. We discuss what's happening at work, and if there are people from different companies, they even tell us about openings in their companies," said Gaurav Naik, another Quickride user.

Sir/Madam,

Request you to refer to the representation of M/s Quick Ride (attached) regarding the conduct of Go-Green Carpooling Awareness Campaign for enterprises in SEZ to reduce traffic congestion and Air Pollution. As per directions of DS(SEZ) in the trail mail, it is requested that the carpooling campaigns may be allowed for employees of SEZs.

Warm regards
